

# Vladyslav Stebnistkyi

## Senior Full-Stack Web3 Engineer

With 7+ years of experience in full-stack development, successfully led projects that optimized server infrastructure and streamlined deployment processes, resulting in significant improvements in product development efficiency. Spearheaded the enhancement of web SaaS solutions on Linux/Unix platforms in AWS and on-premise environments; drove server infrastructure migration and automated CI/CD processes, accelerating product development and reducing deployment time by 50%.

## SKILLS

Ethereum(3 years) Smart Contract(3) Solidity(3) web3.js(3) Laravel(7) Node.js(7) React.js(7)  
Next.js(5) Vue.js(5) Nuxt.js(4) TailwindCSS(4) GraphQL(4) Apollo Client(3) Apollo Server(3)  
Express.js(5) Hapi.js(3) Spring Boot(3) Django(4) MySQL(6) MongoDB(4) PostgreSQL(3) Prisma(2)  
Hardhat(3) Truffle(3) Docker(4) Amazon Web Service(4) DevOps(3) Nginx(3) CI/CD(3) Linux(6)

## WORK EXPERIENCE

### Full-Stack Web3 Developer (Remote)

KEY Difference Media

10/2022 - 11/2023

India

#### Achievements/Tasks

- Closely collaborated with the product and developer teams to improve the efficiency of the platform by 25%
- Development of vault smart contracts and unit tests, deployment scripts using Hardhat, Solidity, Ethers.js, Web3.js Chai, and Typescript
- Developed comprehensive DevOps strategies to ensure reliability and scalability of application
- Spearheaded the design and execution of CI/CD pipelines leveraging Ansible and AWS; slashed deployment failures by 60% and accelerated software delivery by 40% in the cloud computing industry
- Integrated the Stripe payment gateway and Venly wallet into the system, enhancing the payment processing capabilities and providing users with a secure and seamless transaction experience
- Directed the achievements of two pioneering blockchain projects, rallying stakeholders for project alignment and success; mentored and tutored two junior developers, nurturing a culture of perpetual learning and advancement within the team

### Senior Full-Stack Developer (Remote)

The House Of Yaya

06/2020 - 08/2022

United Kingdom

#### Achievements/Tasks

- Enhanced front-end applications utilizing Next.js framework, revamped UI components adhering to design system guidelines; reduced page load times by 40% and solved mobile responsiveness, resulting in a 25% increase in user retention rate
- Resolved 15+ critical bugs in the front end using debugging tools and regression testing, resulting in a 40% decrease in customer complaints and a 25% increase in app stability
- Refactored a back-end application by switching to AWS DynamoDB, Dynamoose, Django, and GraphQL stack and re-engineering the complete architecture to make the code clean, readable and scalable for specific usage
- Orchestrated the integration of PayPal payment feature into the platform, enhancing user experience and increasing customer trust, leading to a 35% rise in completed transactions and a 20% reduction in payment disputes
- Engineered and rolled out innovative cloud-based solutions utilizing AWS and Kubernetes, leading to a significant 40% decrease in system latency and a 25% increase in data processing efficiency, delivering \$50,000 in yearly cost savings
