

Yamazaki Shou

Web | Blockchain developer

richman910909@gmail.com

+8143-721-0732

Tokyo, japan

I worked as a research scientist on machine learning and algorithm for IBM T.J. Watson Research Center, Industry Solution Group, from 2012 to 2017. I worked as a J2EE software engineer from 2006 to 2008. I obtained a Ph.D of Computer Science from University of California, Los Angeles, with major in Deep Learning and minors in Artificial Intelligence and Data Mining. I have been awarded the Most Outstanding Ph.D Graduate Award, the Northrup-Grumman Outstanding Graduate Student Research Award, the Chancellor Award for Most Outstanding Applicants, all from Computer Science Department, UCLA and the Japanese Government Award for Outstanding Japanese Students Overseas, 2010. I had worked as a consultant for many start-ups on various projects and I have solid background on both research and development.
